## Introduction

The 'Skillnet Ireland FOI Reference Manual – A guide to the functions, records, rules and practices of Skillnet Ireland' is compiled in accordance with the Freedom of Information Act 2014.

The Freedom of Information (FOI) Act, effective from 21st April 1998, established three new statutory rights:

- a legal right for each person to access records held by public bodies
- a legal right for each person to have official information relating to him/herself amended where it is incomplete, incorrect or misleading and
- a legal right to obtain reasons for decisions affecting oneself

The Act asserts the right of members of the public to obtain access to official information to the greatest extent possible consistent with the public interest and the right to privacy of individuals.

The FOI Act is designed to allow public access to information held by public bodies which is not routinely available through other sources (e.g. via publication or on the internet). Access to records under the FOI Act is subject to certain exemptions, involves specific procedures and time limits and may involve charges to the enquirer. Information on these points is given in this manual.

## An Overview of Skillnet Ireland

Skillnet Ireland is a national agency dedicated to the promotion and facilitation of workforce learning in Ireland. Skillnet Ireland's main role is the promotion and facilitation of enterprise training and workforce learning as key elements in sustaining Ireland's national competitiveness and economic prosperity.

Skillnet Ireland was established in 1999 and is funded from the National Training Fund (NTF) through the Department of Education and Skills (DES). It is a company limited by guarantee under the Companies Act.

The company works within the terms of its mandate and funding agreement with DES set in place in 2011. The funding agreement makes provision for funding from the National Training Fund (NTF) at the discretion of DES within the annual budgetary estimates process.

Skillnet Ireland funds groups of companies in the same region/sector, and with similar training needs, through learning networks that deliver subsidised training to Irish businesses and a limited amount of free training to job-seekers.

Skillnet Ireland manages four main training programmes:

- Training Networks Programme supports training across a wide range of industry sectors and geographical regions through over 60 enterprise-led learning networks.
- Future Skills Programme is a funding stream for the development of innovative new programmes that address emerging skills gaps within growth sectors.

- Skillnet Ireland Management Development is a bespoke management development offering designed to equip business owners and managers with the management capabilities vital for long-term success.
- Employment Activation Programme provides training and work placements for those seeking employment or those seeking to re-enter the workforce.

Skillnet Ireland' stakeholders include leading employer and employee representative bodies: Irish Business and Employers Confederation (Ibec), Chambers Ireland, Construction Industry Federation (CIF), Small Firms Association (SFA) and Irish Congress of Trade Unions (ICTU).

Further information on the above programmes may be found in Part 2 of this manual.
